

Alien lady Stardust

She was a lady in my taste
a creature from Orion´s belt
an alien lady Stardust

She was a body snatcher girl
a space invader in my world
and she called me Ziggy

Will you love this alien baby
Yeah yeah I will
if she will have me too
For I am alienated and blue

We encountered in deep space
She ripped off my human face
and replaced it with another

Now I´m barking at the moon
like some under cover clone
looking like her beardy brother

Will you love this alien baby
Yeah yeah I will
if she will have me too
For I am alienated and blue

When she left she took my eyes
Now I´m visually impaired
for at least another life

And one life was all we had
for whatever we had felt
Now she´s in Orion´s belt

Will you love this alien baby
Yeah yeah I will
if she will have me too
For I am only human with you
