

## alien

As seen on faces for so many years  
Ever since monkeys were thinking like fish with arms and legs  
Reflected in the corner of the humanoid eye  
The aliens were walking next to us

Shobido I can see you  
Can you see me too?  
Shobido I can feel you  
Can you feel me too?  
Watch me as I fall  
Down the cliff where humans hang their old

One fallen alien was seen on bus 12  
Fell asleep on her seat and never came back to Yellow brick road  
Swing your dick invisible when you speak to her  
It will make you feel sane and the alien will sing

Shobido how I love you  
Do you love me too?  
Shobido how I love you  
And my love is true  
Catch me as I fall  
Or don't catch the alien at all

Your wall is blue and your sky is too  
So what's painted on your blue eye is invisible to you  
And why are you sober on a night like death?  
Sweet is reality organic is breath

Shobido how I live you  
Do you live me too?  
Shobido I can't see you

and my life is true  
Catch me as I fall  
Or don't catch the alien at all
