

## onlyyou

Only you can make me fall asleep  
Calling you with words we only share  
I close my eyes and find  
that you are inside my mind  
Only you  
Only you

I walk with you forever on a beach  
You and I the blue sky and the kids  
I shut my mouth and breath  
the universal sea  
Only you  
Only you

Long kiss hello and long kiss goodbye  
Hearts on fire and hearts that are tired  
I open my eyes and see  
that you are part of me  
Only you  
Only you
