

## Theme from browncow mp3 music

Your work is down the drain  
You school is driving you insane  
Society is not your club  
You'll never fit that plug and play hub

Your head is all in pain  
You brain is calling you in vain  
Love is all you feel  
For you even the planets are unreal

You fuck with strangers on a train  
But you can't escape your malfunctioning brain  
Bullshit leaves you sad  
Browncow mp3 music is mad
